

# 2020 SUMMER CAMPS

## AT COLUMBUS STATE

### **Design Thinking: Additive Manufacturing Summer Institute**

**JUNE 8-26**

Join us for a 3-D printing summer experience! Additive manufacturing is a process of making three-dimensional objects from a digital model. In this three-week camp, students get hands-on experience with cutting-edge technology and explore manufacturing careers.

### **Logistics Engineering Technology Early College Experience**

**JUNE 18-19**

Discover cutting-edge careers in logistics. Robotics, data analytics, and other new technologies are revolutionizing this growing field. This two-day summer camp focuses on Logistics Engineering Technology – a multi-disciplinary program combining logistics, engineering, and IT.

### **Cybersecurity Workshop**

**JULY 13-17**

Explore hacking, coding, cyber threats, and more! The Cybersecurity Workshop allows high school students to learn about this growing field with fun, hands-on activities. Previous experience is not required. The camp is offered free of cost to participants. Lunch and snacks will be provided.
